SUMMARY

Software Developer with 1.5+ year of hands-on experience building full-stack web applications using the MERN stack, with working exposure to Next.js, Nest.js, PostgreSQL, Docker, and Prisma. Strong problem-solving foundation with 250+ DSA problems solved across LeetCode and GeeksforGeeks. Experienced across the full feature lifecycle — from UI implementation to API design — in fast-paced, collaborative team environments. Currently looking to grow into a role with greater backend depth and ownership.

WORK EXPERIENCE

Software Developer — Senwell Group Sep 2025 – Present

Pune, Maharashtra

- Owned end-to-end delivery of multiple production features, from UI implementation in React.js and Redux Toolkit through backend API design in Node.js and Express, integrating both layers into a single working data flow.
- Designed and built scalable REST APIs in Node.js/Express covering data validation, authentication, and integration with backend services consumed by the frontend.
- Built dynamic, reusable UI components with React.js and Tailwind CSS, translating design requirements into responsive interfaces used across multiple modules.
- Maintained clean version control across a cross-functional team using structured Git branching, pull requests, and code review, consistently delivering assigned modules within sprint timelines.

Software Developer Intern — SiliconMount Tech Services Pvt. Ltd. Jan 2025 – Jul 2025

- Built responsive UI components with React.js and Tailwind CSS and integrated them with backend REST APIs to render dynamic, real-time data.
- Collaborated with senior developers to debug UI issues and optimize component performance, directly improving page responsiveness.
- Reviewed pull requests and contributed to internal documentation, delivering UI features on schedule across multiple sprints and gaining exposure to the full frontend-to-API integration lifecycle.

PROJECTS

ClassWave — The Learning Ecosystem — MERN Stack, Redux Toolkit | [GitHub](#) | [Live Site](#) Mar 2025

- Built a full-stack learning platform allowing students to enroll in courses, track progress, and complete assessments, and instructors to create and manage courses and learning resources.
- Implemented role-based views and permissions to separate student and instructor workflows within a single codebase.
- Used Redux Toolkit for centralized state management across enrollment, progress-tracking, and assessment modules, keeping UI state consistent across a multi-step user flow.
- Architected the application on the MERN stack (MongoDB, Express.js, React.js, Node.js) with a component structure designed for scalability.

JobConnect — MERN Stack, JWT Auth | [GitHub](#) | [Live Site](#) Apr 2024

- Built JobConnect, a full-stack job platform enabling candidates to apply for jobs, track application status, and receive real-time updates on their applications.
- Built recruiter-facing tooling to post jobs, manage incoming applications, and act on candidates directly from a dashboard.
- Implemented secure authentication and authorization using JWT to protect user data across candidate and recruiter roles.
- Built a fully responsive interface tested across device sizes, and deployed the app on the MERN stack for production use.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript

Frontend: React.js, Next.js, Redux Toolkit, TypeScript, Tailwind CSS, Bootstrap, HTML, CSS

Backend: Node.js, Express.js, Nest.js, RESTful APIs, MongoDB, PostgreSQL, MySQL, SQL, Prisma

Tools: Git, GitHub, Docker, VS Code, Postman, IntelliJ IDEA, Figma

Coursework: Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks, Software Engineering

EDUCATION

B.Tech, Information Technology — Dr. Babasaheb Ambedkar Technological University Aug 2021 – Jul 2025

CGPA: 7.87 / 10 | Raigad, Maharashtra

12th Standard (Science) — Mahatma Gandhi Junior College of Science, Karmala Jun 2020 – Mar 2021

Percentage: 93.33% | Karmala, Solapur

CODING PROFILES & CERTIFICATIONS

- [GeeksforGeeks ↗](#) — 200+ problems solved | [LeetCode ↗](#) — 100+ problems solved
- DSA in Java (Apna College) | Front-End Web Dev (Coursera) | MERN Stack (PhysicsWallah) | Full Stack Web Dev (Internshala)
